Case 1. I don’t have an ORCID iD.

1. Go to [http://orcid.org/](http://orcid.org/) and Click “Register now!”

![ORCID Registration Process](image1)

2. Fill the form, click “Register.”

![ORCID Registration Form](image2)
3. If you get this page from ORCID,

   a. **For Faculty & Staff**: Texas A&M University Libraries has not been minted any ORCID iDs for faculty and staff unless they request to do so.

   b. **For Graduate Students**: Texas A&M University Libraries had been minted ORCID iDs for graduate students who had been enrolled as graduate students in Spring 2014, Spring 2015, Fall 2015, or Spring 2016. If you were enrolled as a graduate student in that specific semesters, you have an ORCID iD that batch-minted by Texas A&M University Libraries. Your email address that the system used was your official TAMU email address (i.e., the one you can find from TAMU Directory: [https://services.tamu.edu/directory-search/](https://services.tamu.edu/directory-search/)). Go to TAMU Directory, [https://services.tamu.edu/directory-search/](https://services.tamu.edu/directory-search/), and find yourself. You should be able to check out your ORCID iD. If you have not used your iD before and do not know your password, you should ask to ORCID by clicking “Forgotten password: [https://orcid.org/reset-password](https://orcid.org/reset-password)”
c. **For Undergraduate Students**: Texas A&M University Libraries has not been minted any ORCID iDs for undergraduate students unless they request to do so.

4. If none of the ORCID iDs are yours, click “None of these are me – continue to registration.” You now have an ORCID iD.
5. Let's connect your ORCID iD to NetID. Go to “http://tamu.libguides.com/orcid” and click “Create or Connect your ORCID iD” button.

6. Log in through central TAMU authentication system.
7. Fill in your ORCID iD and ORCID Password and then click “Authorize.”
8. Success. Your ORCID iD is now connected to your NetID.

9. You can check the connection with TAMU Libraries in your ORCID account setting.
