Navigating PressReader to get to the translator function

PressReader offers a translation function that can translate from the original language of many of the publications included to a second language, including English, Arabic, Chinese and others.

1) Once in the database, click on the **MENU** icon at the extreme upper left (next to the teacup).

![PressReader interface](image1)

2) From the drop down menu, click on **Publications**.

![PressReader publications menu](image2)

3) Choose the country that you are interested in reading newspapers from.

4) From the gallery of newspapers available, click on the title you want to read.
5) Once you are in the newspaper (the background is black), click on the **ICON with the 3 dots** at the extreme upper right.

6) Click on the **Translate** option.

7) Select the **Language** that you want the publication translated into.

It will take a few seconds to process the translation. Be advised that it is a machine translation so some of the meaning could be lost.
