From the Texas A&M University Libraries web page (http://library.tamu.edu), select the Get It For Me link or go to it directly at http://getitforme.library.tamu.edu/. Click the appropriate link for the Libraries that you regularly use.

This will bring up a web page where you will see a button. Click it. The next screen will also ask you to choose a Login option (NetID is the default option and is used by most A&M affiliates; the Health Science Center is the exception).

Login with your NetID and password. If you don’t know your NetID, you can get help at http://it.tamu.edu/Accounts_and_ID_Management/UIN_NetID_and_Parsswords/NetID/index.php
The first time that you login, fill out the basic information and choose your home library.

You will now be able to request materials through Get It For Me. Note, the link to Get It For Me is available in some databases as Find Text @ TAMU or in Google Scholar as Full Text@TAMU link.

If you have any questions or concerns, please contact Interlibrary Services at: 979-845-5641 or ilsshare@library.tamu.edu.
